A Journey Presented by R & R Quest

October 30—November 13, 1988

The mission of this journey is to strengthen the fabric of good will that exists between the peoples of the Soviet Union and North America. We accomplish this through a focus on expanding social, cultural, psychological, and historical awareness in a framework of direct people to people association with groups and individuals. Through meetings and dialogue we enhance our understanding of mutual differences and especially our appreciation for areas of shared experience and values. We create opportunities to further our mutual knowledge and good will through exploration of future joint educational exchanges. We acknowledge and hold highly the active part we are playing in the creation of a better world.

Facilitating this journey will be R & R Quest principals Ron King and Robert St. Denis, Context Trainings Corporation staff Pat Fandrich, Larry Reymore, Leigh Farrell and Myra Goldfarb, *Context Shift* publisher Viktor Lawryniuk and Michelle Sherman owner of VAST, a consulting firm.
